Summary

Senior Software Developer with 6+ years of experience building production mobile apps across banking, healthcare, and enterprise projects. Strong in Flutter, Dart, RESTful APIs, app releases, bug fixing, and cross-functional delivery. Experienced in task coordination, sprint planning, developer support, and stakeholder collaboration.

Experience

Mandrill Tech Sdn. Bhd.
Senior Software Developer

Mutiara Damansara, Petaling Jaya
May 2024 - Present

- Develop and maintain production features for 2 banking mobile applications using Flutter and Dart.
- Contribute across mobile app, web portal, and backend development for enterprise project delivery.
- Own feature development from requirement clarification to implementation, testing support, bug fixing, and release preparation.
- Integrate RESTful APIs, JSON data, and third-party services for core application flows.
- Collaborate with product, QA, backend, frontend, and design teams to resolve blockers, improve code quality, and deliver sprint requirements.

HAYAT Technologies Sdn. Bhd.
Assistant Team Lead
Flutter Developer

Mid Valley, Kuala Lumpur
January 2023 - April 2024
April 2021 – January 2023

- Developed and maintained cross-platform mobile apps using Flutter and Dart.
- Worked on SELANGKAH, a public healthcare platform used during the COVID-19 pandemic.
- Built features, integrated RESTful APIs, fixed bugs, and supported App Store / Play Store releases.
- Used BLoC and Provider for state management across Flutter app modules.
- Supported sprint planning, task coordination, progress tracking, and developer support.
- Collaborated with QA, backend teams, project managers, and stakeholders to keep delivery on track.

ASP Medical Group
Mobile App Programmer

Masjid Jamek, Kuala Lumpur
Sep 2020 – Apr 2021

- Developed, tested, and maintained mobile application features for iOS and Android platforms.
- Integrated RESTful APIs and supported mobile app enhancements, bug fixes, and maintenance tasks.
- Collaborated with designers, product managers, QA engineers, and developers to deliver application updates.
- Assisted with testing, issue investigation, and production support.
